DETAILED ACTION

Response to Amendment

The applicant's amendment received 1-24-05 overcomes the examiner's prior art rejection. Hence claim 21 is allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The examiner conducted an interview with the applicant's attorney in December 16, 2004. In a telephone message subsequent to the interview, the Examiner indicated that it was likely that a combination of Claims 21, 2, 4, 5, 18 and 15 would be allowable.

2. Claim 21 has been amended per the examiner's recommendation and all remaining claims have been canceled.

3. It is submitted that Claim 21 defines over the prior art for all the reasons set forth in the previously filed response to the April 23, 2004, Office Action. Furthermore, Gallant relates to the field of mobile telecommunications but fails to address the subject matter of real-time billing in mobile networks. Specifically, Gallant is silent on a real-time billing of telecommunication connections when a subscriber is located outside his home network. The "query messages" disclosed in Gallant have nothing to do with the claimed real-time charging of roaming connections. Even if the three references cited by the Examiner were to disclose all of the limitations set forth in amended Claim 21, which they do not, there is no teaching or incentive present in the references to provide the

process defined by Claim 21, particularly with the addition of the limitations of Claims 2, 4, 5, 15 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
